RE: Fire Pump Aboveground Storage Day Tank at 100 Nagog Park Drive, Acton, MA

Dear Mr. Trodella:

CommTank is pleased to present this proposal for the installation of one 120-gallon fuel oil aboveground storage day tank (ASDT) and the removal of one 120-gallon ASDT at the above-referenced location.

Removal of Existing ASDT

- Obtain necessary permit from Acton Fire Department
- Pump out fuel from the existing 120-gallon ASDT and associated piping
- Cut opening into ASDT
- Remove sludge from ASDT
- Disconnect and remove fuel oil supply and return pipes going from the main tank to the generator
- Disconnect fill and vent pipe
- Disconnect electrical wires to level sensor
- Transport and properly dispose of the ASDT

ASDT Installation

- Obtain necessary permit from Acton Fire Department
- Provide and install one (1) 120-gallon dual wall UL-142 aboveground Highland Tank with supports and exterior standard primer
- Provide and install new fuel supply and return pipes from the day tank to the generator
- Install an emergency vent for the primary and secondary containment
- Reconnect electrical wires for level sensor
- Reconnect existing fill and vent pipe to the new day tank
- Test level sensor to assure proper operation
- Install a mechanical interstitial leak sensor
